NOTE FOR: Comptroller
VIA: Chief, Legislative Liaison Division
FROM: Chief, House Liaison, Legislative Liaison Division
SUBJECT: NFIP Overview

1. Attached are my handwritten notes from DDCI's 23 February FY83 NFIP Overview before the House Permanent Select Committee on Intelligence (HPSCI). Note, in particular, page 11 thereof re CIA Overseas Pay.

2. The other contentious issue was the budget format, viz., targets vs programs. In that regard, see pages 9-10 of my notes.

3. I spoke briefly yesterday with Jim Bush about the hearing. Bush underscored three issues stemming from the hearing:

I. CIA Overseas Pay: according to Bush the problems with this are as follows:

a) the problem should have been approached from Community perspective with the ICS in the lead;

b) the test base used was too small;

c) there are no FY83 funds earmarked for the 9.6 percent; consequently, a supplemental will be required.

II. Format: Bush says the format issue is one the Committee feels strongly about.

III. SAFE: DDCI expressed his own personal dissatisfaction with this from a management and scheduling perspective (see page 9 of attached notes).
